THE MOOSE JAW TIMES.

FRIDAY, AUGUST 11, 1893.

Days Gone By.

Oh, the days gone by! Oh, the days gone by!
The apple in the orchard, and the pathway through the rye;
The chirrup of the robin, and the whistle of the quail,
As he piped across the meadows sweet as any nightingale;
When the bloom was on the clover, and the blue was in the sky,
And my happy heart brimmed over in the days gone by.
In days gone by, when my naked feet were tripped
By the honey-suckle's tangles, where the water-lilies dipped,
And the ripple of the river lipped the moss along the brink,
Where the placid-eyed and lazy-footed cat came to drink,
And the titling snipe stood fearless of the trout's wayward cry,
And the splashing of the swimmer in the days gone by.
Oh, the days gone by! Oh, the days gone by!
The music of the laughing lip, the lustre of the eye;
The childish faith in fairies, and Aladdin's magic ring,
The simple, soul-reposing, glad belief in everything,
When life was like a story, holding neither sob nor sigh,
In the olden, golden glory of the days gone by.

BACHELORS.

In a recent number of the Pilot Mound Sentinel, a very readable Editorial appeared under the heading "bachelor farmers," which we quote in full as follows:—

"There are no more amiable, industrious, unfortunate and preserving persons amongst the rural population of Manitoba than those who are known as bachelors; generally excellent men, existing in considerable numbers in various portions of the province, but becoming poorer, more unhappy, more unhealthy and more desolate as years roll by. These hermits have not been disappointed in love; they have met with no serious misfortunes; they start to make homes on good farms, intending to settle down when they have made things comfortable around them, but instead of becoming better matters become worse; nor can it be otherwise. The young man rises in the morning, leaves unmade the bed that has perhaps not been made for weeks; he then feeds his horses, and in the unswept and dusty house prepares a hasty and ill-cooked breakfast, which is eaten from off unwashed dishes. The bread is generally sour, or hard, or dry, the butter salty and rancid, the coffee worthless, the meat burned on one side and raw on the other. The breakfast table is left covered by dirty dishes and slops, where a million flies gather to feed in undisturbed peacefulness. The unrefreshed bachelor goes to the field lonely, miserable and dyspeptic. At noon he drives his team to the stable out of the hot sun, and then goes into his shanty and builds a hot fire in order to get dinner. Heated by hard work under a blazing sun, a good wash, a cool room and a well cooked meal is what he requires but what he cannot have. At supper it is the same thing over again. His underclothing—seldom washed—becomes clogged by perspiration, and his bedclothes are in the same unhealthy condition. When he is in the distant field at work the hawks soar around the forsaken house and catch the chickens in the yard; the pigs get into the garden if he has one; the calves get out of the enclosure and suck the cows. Sometimes the deserted house burns down from a spark that may drop from the neglected stove. When the bachelor is visiting the grocery store, the mill, or the blacksmith shop, cattle get into his grain fields or pull down his stacks and there is no one to let the dogs loose, and the marauders ramble at will undisturbed. So the years go by, the man becomes poorer and has that peculiar neglected look common to men who live alone. Health soon becomes impaired, and the mind often sympathizes with the body. What the bachelor requires in his home is a broad shouldered stirring wife, that will keep the house in order as well as the husband who owns it, and who will see that clothing and blankets are made clean and are

kept so; who will serve a good, well cooked dinner with fresh sweet bread of her own making, and delicious butter of her own churning; who will see that groceries are good and that the proper value has been received for the money expended; who will wash and mend her husband's clothing and remove the shingle nails that have been used as substitutes for buttons; who will look after the hens' nests, and see that the dairy is kept in order, and who will place the Bible on the table when the day's work is done. The once despoiled and forlorn bachelor will then be transformed into one of the lords of creation. His hearing will be erect, his eye clear and his pulse full, his garden will have flowers and his shirt have buttons. Instead of dead flies, stale crumbs and grease spots, there will be a clean cloth on the table and strawberries and cream in the dishes."

The cause of there being so many excellent young men, who remain unmarried is to a great extent due to the scarcity of young ladies in our western prairies.

GENERAL NOTES

At the Fish Creek, Alberta, fair prizes were offered for the greatest collection of topper tails. One boy had something over 1100, the next \$24, and a third something over 600. The gratifying success of this competition has induced the directors to make up another special purse to be competed for this year and to be decided at the end of the gopher season.

BANFF HOTEL, N. W. T., Aug. 6.—Edward Holmes, the postman, accompanied by his little dog, arrived here this evening. He will do the park to-morrow and leaves for the west Tuesday morning.

SAN FRANCISCO, Aug. 7.—The southern Pacific company is pursuing a policy of retrenchment and has discharged 1,000 employees, decreasing its monthly pay-roll not less than \$75,000, or a rate of \$900,000 annually. The discharged men were on the Pacific system of lines west of El Paso and Ogden and south of Portland. A reduction has also been made on the Atlantic system east of El Paso, but just to what extent is not known here.

LONDON, Aug. 8.—The Duke of York has announced that it is his desire that the money collected by seamen and marines of the British navy and presented to him and the Princess May on the occasion of their wedding, be added to the fund for the relief of the families of the victims of the Victoria disaster. If the money is not needed for the Victoria fund it is to be invested for the benefit of the widows and other relatives of naval men dying in the service of their country.

MONTREAL, Aug. 7.—A Canadian Pacific official declares that so far as the Canadian tourist trade is concerned the World's Fair has been a miserable fizzle, instead of being 100 per cent. better than last year's trade, as every one expected. The railway companies, hotel proprietors, and managers are bitterly disappointed. The rolling stock of some of the railways has been almost doubled in anticipation of a great boom in passenger and traffic business, but as a matter of fact, the European travel is not one whit greater than that of other recent years, and American travel is about three times less than that of last summer. The shipments of grain out of the Montreal port from the opening of navigation until the end of July amounted to 12,047,004 bushels, against 9,338,947 for the same period last year. Export so far is the largest on record.

James Blair's Case.

NAPANEE, April 10.—A highly interesting case has happened in this town which is creating a good deal of comment. Mr. James Blair, a well-known merchant tailor here, has for fourteen years been a sufferer from that terrible complaint, known as Bright's disease of the kidneys. He suffered so terribly that one hour's work at the cutting table would completely exhaust him, and he had to almost give up work altogether. He tried almost every known

remedy for his complaint, but without any good results. Medical men and patent medicines failed him, and he was gradually getting worse every day. Finally he read a despatch in one of the local papers, stating that a man named Murray, living in Gravenhurst, had been cured of Kidney trouble by using Dodd's Kidney Pills. As a last resort Mr. Blair began taking these pills and three boxes completely cured him. Mr. Blair is back at work again and says he feels twenty years younger, and that these pills completely cured him. His recovery has created quite a sensation.

When we assert that

Dodd's Kidney Pills

Cure Backache, Dropsy, Lumbago, Bright's Disease, Rheumatism and all other forms of Kidney Troubles, we are backed by the testimony of all who have used them.

THEY CURE TO STAY CURED.

By all druggists or mail on receipt of price. Beware of cheap imitations.

The Things We Prize Most

are not the gewgaws and glimmers we gather about us. Every life, of course, has its sacred, time-honored treasures, but in this practical world-day world man is prone to value most those things which serve him best. Not much sentiment in this, perhaps, but some sense all the same.

The McCormick Machine of Steel

takes first rank the world over. Hundreds of thousands of grain growers call it the best harvester and binder that ever went into a grain field, and they prize it accordingly. It isn't sentiment with them—it's just plain, old-fashioned common sense. They like it best because it serves them best. It costs more money than some harvesters, but that's because it's more valuable. Its advantages more than offset the added cost. The "Machine of Steel" is built to harvest the grain crop of the world, and to do it better than any other machine. Perhaps you may care to know more about this harvester. Our catalog will interest you. McCormick Harvesting Machine Co. CHICAGO, ILL. C. A. GASS, Agent.

FRIDAY, AUGUST 11, 1893.

LOCAL AND GENERAL NEWS.

School opens on Monday the 14th.

Mr. Geo. Williams, rancher, was in town on Tuesday last.

Miss May Holdsworth is visiting friends in Brandon.

Miss Carry Wilson, is visiting friends in the country.

Mr. H. Battell visited the Regina races on Tuesday.

Mr. S. McDiarmid is spending a week with friends in Winnipeg.

Mr. J. A. Creigh, is spending a few days at Danell.

Mr. William Simington took in the Regina races on Tuesday.

Mr. Geo. Bartrem is erecting the foundation of his new residence.

Mr. John Rutherford left on a two weeks trip through Manitoba yesterday.

A cow belonging to Mr. Geo. Kent was killed on the track on Sunday by the express.

Mr. Geo. Barber commenced cutting the grain in the C.P.R. gardens on Monday last.

Miss Mary Smith and Miss Bessie Ostrander spent a few days this week at Spring Bank ranch.

Messrs. T. B. Baker, O. Field, and R. H. W. Holt attended the Regina races on Wednesday.

Miss Minnie Wilson, who has been visiting friends in town for the past two weeks, left for her home in Qu'Appelle on Friday last.

Dr. P. F. Siz, Surgeon Dentist, will visit Moose Jaw, on the 22 and 23 of August, instead of the usual date. See adv. (ADVT.)

Rev. W. L. Clay, wife and family left on a month's visit to Prince Albert on Monday last. During his absence Mr. R. J. Hutcheon, M. A., will occupy his pulpit.

WANTED—A good laundress. Highest wages paid. Apply to A. SMITH, C.P.R. Dining Hall.

The town has been in darkness this week, owing to damage done to the electric dynamo, during the wind storm on Sunday night last.

The wind storm on Sunday night succeeded in turning over a number of fences and out-buildings in our immediate neighborhood.

Mr. and Mrs. John Furnis, accompanied by Mrs. Furnis' brother, Master Walter Hall, returned from their trip to Winnipeg on Sunday.

A number of our young ladies and gentlemen, secured ponies and saddles, and took in the entertainment in Wesley Church, on Wednesday evening.

A number of the members of the Salvation Army drove to the nearest equipment of the track-layers on the "Soo" line, and held an open air meeting on Tuesday evening last.

The Boham Methodist Mission have issued their financial report for the year ending June 30, '93. This mission comprises the Boham, Caron and Carmel churches.

Mr. F. A. Meller is making preparations for the opening of a store next door to R. C. MacDonalds, to be known as the "Sportsmen's Headquarters." It is his intention to carry a full line of guns, ammunition, etc.

The hot weather of the past week has to some extent damaged the crops on light lands and stubble, but it is not considered that any serious damage will result to grain sown on well cultivated ground.

If the parties who bathe in the Government dam between Evatt's and Gilmour's would remember that they can be punished by the law for so doing and stop the habit the water would then be of such a character as to permit the neighbors using it for all purposes.

On Tuesday last over forty teams turned out to the ploughing bee on the farm of Mr. C. A. Gass. In the neighborhood of sixty acres of summer follow was turned over. After a hearty supper and the feeding of teams, a most enjoyable night was spent in dancing.

The Moose Jaw Gun Club have received their traps, three in number, which are of a superior grade and work well. Each evening during the week a number of the members have been enjoying the luxurious practice, over one hundred shots being fired upon each occasion. The number of birds broken speaks well as to the future success of this club.

THE REGINA RACES.

THE FIRST DAY.

The first race called on Tuesday afternoon was the three minute trot. The entries were Mable Sharpe (J. L. Benson), Zillix Maid (E. Knight), Lorne Harold (M. Kearns), Dan J. (R. Johnston), Cannuck (C. Simmons). Pneumatic tyre sulkies appeared in this race for the first time on the Regina course. The last three horses were distanced the first heat. With a first and two seconds to her credit, on the fourth heat Zillix Maid made a fast pace and came under the wire a few feet in advance, but was set back for running, and the race was given to Mable Sharpe—a black mare which promises to make a splendid trotter.

The table reads:

Mable Sharpe	2 1 1
Zillix Maid	1 2 2
Time—2.43, 2.40, 2.42, 2.37.	

In the half-mile pony race there were eight entries:—Jo Jo (G. Ross), Happy Jack (W. L. McCracken), Polo (W. Davidson), Wynona (E. Smith), Mable Grey (R. Weir), Home Rule (W. Simington), Flying Ant (M. Kearns), Doherty (J. A. McCaul). Mable Grey was drawn. Jo Jo sold a hot favorite in the pools, and his backers were right. Flying Ant and Doherty were distanced. The score was:

Jo Jo	1 1 1
Happy Jack	2 2 3
Polo	4 3 2
Wynona	3 4
Home Rule	5 4
Time—55, 54, 55.	

In the half-mile running race the starters were Randall (C. F. Rea), Richard III (Chas. McDougall), Miss Tex (Beckton Bros.), Blair Athol (M. Oxenrat). Blair Athol sold favorite against the field. The horses got a good start and the heat was a beautiful

one. Miss Tex kept close to the favorite all the way around, and right in front of the wire made a brilliant spurt and won by a nose in 50 1/2 seconds. Randall was a good third. Then the western men jumped into the pool box, and with a heat against their horse, bought him eagerly at 10 to 7. But they weren't in it; the Cannington Manor mare won the second heat by several lengths.

Miss Tex	1 1
Blair Athol	2 2
Randall	3 3
Richard III	4 4
Time—50 1/2, 51 1/2.	

In the 2 year old trot or pace, there were 21 nominations, but only two starters:—Romona (Chas. Wilson, Regina), Reverie (G. Longstreet, Stonewall). The Regina colt won easily.

Romona	1 1
Reverie	2 2
Time—3.12.	

THE SECOND DAY.

Wednesday was such a day as patrons of the Derby would give thousands to have guaranteed. It was cloudy, warm, but not hot, and a light sprinkling of rain fell—scarcely enough to lay the dust.

In the 2.30 trot or pace, Mable Sharpe, Zillix Maid and Beechwood (R. Sweet) started. The score tells the interesting tale. Heavy money was staked on the Maid after the fourth heat. In the fifth she broke badly, and thus lost the race.

Beechwood	1 1 2 2 1
Zillix Maid	2 3 1 1 2
Mable Sharpe	3 2 3 3 3
Time—2.44, 2.46, 1.39, 2.35, 2.40.	

Blair Athol was drawn from the 1 1/2 mile dash, because of injury sustained on Tuesday. Great interest was manifested in Miss Tex and Thankful, but the Cannington Manor mare won easily.

Miss Tex	1
Thankful	2
Time—2.17.	

There were nine entries in the polo pony race. Vice sold a hot favorite, and won handsily. In the second heat Gordon's Sugar and Baker's Khaki made a pretty third place.

Vice	1 1
Echel	2 2
Sugar	4 3
Khaki	2 4
Time—53.	

The 2.35 trot was postponed for lack of time.

A Wagon Load Of Money

Does not necessarily imply content and happiness on the part of its possessor. It is not money that gives us pleasure, but the things that money will buy.

Some people spend money foolishly, and fancy they find enjoyment in doing it, but the pleasure is more fancied than real. Do you know who buys?

The McCormick No. 4 Steel Mower
can ever be equalled for cutting money foolishly, and had a hundred reasons for coming to his wisdom.

C. A. GASS, Agent.

Mr. A. E. Fenton, station agent at Swift Current, owing to ill health will leave shortly for Brantford, Ont., where he intends making his future home. Mr. Williams, of Moosomin, will likely be removed to Swift Current to fill the vacancy.

Treasurer of the Two Rivers Protestant Public School District No. 92 of the North-West Territories.

NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the conditions governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth.

A location for mining Iron or Petroleum shall not exceed 160 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therefor, \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS,
Deputy of the Minister of the Interior,
Department of the Interior,
Ottawa, July 1890.

Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba or the North-West Territories, except 8 and 26, which have been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is the head of a family, or male over eighteen years of age, to the extent of one quarter section of 100 acres, more or less.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

HOMESTEAD DUTIES.
Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under oath the following conditions he elects to hold his land:—

1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping those 5 acres and breaking 10 acres additional the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

PATENT FOR ENTRY

may be made before the local agent, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands of his intention to do so. For the convenience of the settler applications for patent may be made before a homestead inspector, a fee of \$5 is chargeable.

SECOND HOMESTEAD

may be taken by anyone who has received a homestead patent or a certificate of preemption conferred by the Commissioner of Dominion Lands upon application for patent made by him, or had earned title to his first homestead on, or prior to the second day of June, 1890.

INFORMATION.

Full information respecting the land, timber, coal or mineral laws, and copies of these Regulations, as well as those respecting Dominion Lands in the Rail Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

A. M. BURGESS,
Dep. Min. of the Interior.
